DAIS FAQ

Q I just closed on my home, who do I schedule my equipment installation with?

A Once you are fully moved in please call 407-203-9205 and select option 2. We can schedule a technician to do your final install.

Q How do I setup WiFi?

A Call 407-203-9205 and select, option 2 for technical support. In most cases, our technician can walk you through the process over the phone.

Q Who do I call to activate Alarm monitoring?

A Call the main line, press option 1 and follow the prompts provided. We'll have a technician come out to activate and train you on your new security system.

Q How far in advance should I call to schedule setup and installation?

A It's best to call 2-3 weeks in advance to ensure your WiFi and alarm monitoring services are delivered at your desired time frame.
